

COMMERCIAL INCENTIVE PROGRAM

CONSERVATION UPGRADE & RENEWABLE ENERGY - Application Form

CONSERVATION UPGRADE:

- Upgrading of energy conservation equipment and supplies
- Energy Audits are not mandatory but if completed will be funded at a rate of 50%
- Incentive is 10% of the final installed cost of:
 - Energy Star equipment (heating / cooling / windows)
 - building envelope improvements (insulation / vapour barrier / weatherstripping)

RENEWABLE ENERGY:

- Includes solar water and air heating, solar photovoltaic and wind electricity
- Energy Audits are not mandatory but if completed will be funded at a rate of 50%
- Incentive is 50% of the final installed cost

APPLICANT INFORMATION (all communication will be made with the contact individual stated below)	
Applicant Name (business, agency, building, complex):	
Contact Person & Position (first & last name, title):	
Contact's Phone Numbers (work, cell, home):	
Contact's Email Address (if applicable):	
Building Name & Description (state existing or new):	
Address of Building to be funded (with postal code):	
Seminar Viewed / Attended (registrant's name & date):	

CONSERVATION UPGRADE INCENTIVE (applicable for the upgrading of energy conservation equipment and supplies)	
Project Description (a simple upgrade overview):	
Energy Audit / Analysis Cost (attach estimate):	\$ _____ x 50% = \$ _____ requested
Final / Total Installation Cost (attach estimate):	\$ _____ x 10% = \$ _____ requested

RENEWABLE ENERGY INCENTIVE (applicable for solar water & air heating, solar photovoltaic & and wind electricity)	
Project Description (type of renewable energy):	
Energy Audit / Analysis Cost (attach estimate):	\$ _____ x 50% = \$ _____ requested
Final / Total Installation Cost (attach estimate):	\$ _____ x 50% = \$ _____ requested

Signature of Contact Person: _____ Date: _____
